

## Визуализация с помощью Grafana - знакомство

0. Создать аккаунт <u>https://grafana.com/</u>

<b>\$</b>						
C ☆	Welcome to Gra	afana Cloud	Free plan			
88	🖻 Stacks 🛛 Users 🗘 API key	s 🛛 🎛 Billing/Usage dashbo	ard 🛛 🗐 Manage subscriptio	on		+ Connect data
Ø						
÷	Current usage	1/3 max	0/10k max	0/50GB max	0/50GB max	Upgrade plan $\rightarrow$
<b>Ž</b>	*Limits reset monthly	Users	Metrics*	Logs*	Traces*	Tired of usage limits?
@						
<b>9</b>	Recent Alerts	All alerts $\rightarrow$	Starred dashboards	All dashboards $\rightarrow$	Help and documenta	ation
۲					Documentation	Support ticket R Community

<b>.</b>	No alerts matching fil	ters				

☺

1. Добавить источник данных - Settings

Data Sources / PostgreSQL							
til Settings A Permissions PRO ⓒ Insights PRO							
⊘ Alerting supported							
Name 🔅 PostgreSQL	Name 🕜 PostgreSQL Default						
PostgreSQL Connection							
Host	dev.vk.edu.ee						
Database seadmed_109							
User	seadmed_109	Password	configu	red		Reset	
TLS/SSL Mode ③	require ~						
TLS/SSL Method ③	File system path $\sim$						

2. Проверить соединение с источником данных

~	Database Co	nnection OK		
Back	Explore	Delete	Save & test	

3. Создать и управлять дашбордами (интерактивная аналитическая панель, графический интерфейс) – Manage Dashboards

Dashboards Manage dashboards and folders							
서 Browse 및 Playlists ⓒ Snapshots 문 Library panels							
Search for dashboards							
♥ Filter by tag							
	🗁 Gei	General					
		Grafana Cloud Home Dashboard					
	🕞 Gra	afanaCloud					
		Grafana Cloud Billing/Usage					
		PRAKTIKA1					

## 4. Настроить панели визуализации
